

Ref: INT 12/08

Item: Natural Stone Coverings

Description of goods:

The product at issue is a white-yellowish polygonal limestone/calcareous stone (The longest part reaches approximately 27 cm. The thickness is less than 9 mm). The appearance of the product at issue is a slab having non-polished and incomplete flat surface. Its surface is of the greatest hardness and contains some unique natural patterns. The product at issue has natural and irregular edges. The slab is significantly a larger limestone than a granule or a chipping.
