# Year of Assessment 2008-2009

(Income for the year ended 30 June 2008)

# I. GENERAL INFORMATION ON SOCIÉTÉ

"Société" means a société formed under any enactment in Mauritius and includes -

- (a) a société de fait or a société en participation;
- (b) a joint venture; or
- (c) a société or partnership formed under the law of a foreign country.

A resident société is not liable to tax on its income. Its associates are, however, liable to tax in respect of their share of income from the société, whether or not the income of the société has been distributed among the associates.

"Resident" when applied to a société means a société which has its seat or siège in Mauritius and includes a société which has at least one associate or associé or gérant resident in Mauritius.

#### 2. COMPUTATION OF NET INCOME

The profit as per the profit & loss a/c is not the taxable profit as not all items of income are taxable nor are all items of expenses deductible for tax purposes. The net profit/loss as per Profit and Loss a/c needs to be adjusted to arrive at the net income for tax purposes.

## General Rule for deduction of expenses

Any expenditure or loss to the extent to which it is exclusively incurred in the production of the gross income of the business is deductible from the gross income.

#### **Unauthorised deductions**

The following items of expenditure are specifically prohibited by Section 26 of the Income Tax Act -

- (a) any investment, expenditure or loss to the extent to which it is capital or of a capital nature;
- (b) any expenditure or loss to the extent to which it is incurred in the production of income which is exempt income;
- (c) any reserve or provision of any kind;
- (d) any expenditure or loss recoverable under a contract of insurance or of indemnity;
- (e) any expenditure incurred in providing business entertainment or any gift;
- (f) any tax payable under the Land (Duties and Taxes) Act 1984;
- (g) income tax or foreign tax;
- (h) any expenditure or loss to the extent to which it is of a private or domestic nature.

### Expenditure incurred in the production of exempt income

- (a) Expenditure or loss exclusively incurred in the production of exempt income is not allowable.
- (b) Where expenditure or loss is incurred in the production of both gross income and exempt income, that part of the expenditure or loss attributable to the production of exempt income shall be calculated using the following formula:

## exempt income x expenditure or loss

total gross income (including exempt income)

(c) Where the proportion of exempt income to total gross income in the above formula is 10 per cent or less, no part of the expenditure or loss as determined above shall be disallowed.

# **Annual Allowance**

Capital expenditure is not an allowable deduction. However, you may claim annual allowance in respect of capital expenditure as specified hereunder:

Capital Exp	Rate of Annual Allowance Percentage of			
		Base Value	Cost	
Industrial p	remises		5	
Commercia		5		
Hotels		_		
Plant or Ma				
	sting 30,000 rupees or less	<u>-</u>	100

Scientific re		-		
Golf course		-		
	or improvement of any other item of a capital nature which is subjec			
•	tion under the normal accounting principles		5	
than daductio	on is however allowable in respect of the same expenditure			

No other deduction is however allowable in respect of the same expenditure.

No annual allowance is allowable unless proper books of accounts and records are kept.

#### 3. DEDUCTION OF TAX AT SOURCE

Enter the amount of tax deducted at source from any income derived by the société as per statement of tax deduction given by the payer/s of the income.

#### 4. SHARE OF ASSOCIATES

- (a) The income of an associate from a resident société is deemed to be the share to which he would have been entitled in the income of the société if the income had been wholly distributed among the associates.
- (b) For the purposes of calculating the net income/loss of an associate from a société, the associate is deemed -
  - (i) to have derived that part of the gross income of the société; and
  - (ii) to have incurred that part of the allowable deductions of the société

which bears the same proportion to the gross income or allowable deductions of the société as his share in the income/loss of the société bears to the income/loss of the société.

(c) Where tax has been deducted at source from any income derived by a société, each of its associates is entitled to claim a credit in respect of his share of the amount of the tax deducted at source.

## 5. NATIONAL RESIDENTIAL PROPERTY TAX (NRPT)

NRPT is payable by every owner of a residential property. A société which is owner of a residential property is liable to NRPT irrespective of whether or not it derives any income.

"Owner" includes the owner of a residential property on any leased land or the person who receives or is entitled to receive any rent therefrom.

"Residential Property" means any immoveable property including any building, apartment, flat, tenement, campement or bungalow, used or available for use as residence. It includes any tourist residence i.e. any premises, other than a hotel or a guesthouse, which offers sleeping accommodation to tourists, with or without meals, for a fee as defined in the Tourism Authority Act 2006. No NRPT is payable on bare land i.e. a plot of land on which there is no residential building.

NRPT is calculated in case of apartment, flat or tenement with reference to its floor area as specified in the title deed or contract and the rate is Rs 30 per square metre. In the case of any other residential property i.e. building, campement, bungalow etc., the tax is calculated with reference to the surface area of the land at the rate of Rs 10 per square metre.

# Conversion Rate

One Toise is approximately equal to 3.8 square metres.

One Perche is approximately equal to 42.21 square metres.

10.76 Square feet is approximately equal to I square metre.

<u>Period of ownership</u> - Insert in the relevant column the number of month/s during which the property was owned by the société in the income year ended 30 June 2008.

Where a residential property is acquired, sold or transferred during the income year, the NRPT should be pro-rated based on the number of months of ownership during the year as follows:

NRPT 
$$\times \frac{1}{12} \times \text{no. of months of ownership during the year}$$

Where a building used as residence is located on a portion of land used for agriculture and the gross income derived therefrom is declared by the owner in his return of income or the building is located on a portion of land outside a residential area, the owner is liable to NRPT with reference to the surface area of land on which stands the building, garage and related structures as well as on the surface area of the background, grounds and garden up to a maximum area of IA25 (0.5276 hectare).

Where a building is used for both business and residential purposes, or where the residential part is located above that on which stands the non-residential part, the NRPT is payable on the whole surface area of land.

Where a residential building is constructed on top of an existing building by virtue of a 'droit de surélévation', it is deemed to be a flat and NRPT is payable based on the floor area of the building.
