

MAURITIUS REVENUE AUTHORITY  
TARIFF UNIT

**Customs Tariff Ruling Database**

The Tariff Ruling database is a compendium of all local tariff opinions issued by the Tariff Unit, and of international tariff classification rulings.

The updating of the database is an ongoing process.

On visiting this database, one will apprise oneself of the valuable information that can be retrieved to keep abreast of the rationale of how goods are classified in the Harmonized System (H.S) and thus, obviously, the determination of the correct rate of duty and taxes leviable on such goods.

The Database is published on the Customs website

<http://www.mra.gov.mu>

You are hereby informed that you may make a request in WRITING for information on the classification of goods in the H.S–based nomenclature. The request shall contain a full description of the goods as well as necessary details (brochures, catalogues etc) to enable their identification.
